WILL AMPUTATE THE BOY'S FOOT

Little Lewis Chester Wells is Re-
moved to Deaconess Hospital
in Indianapolis

PERMISSION TO BE OBTAINED

C. I. & W. Wants to Protect Itself
Against Damage Suit—Mrs.
Wells Taken Home

Just as soon as permission is ob-
tained from Mrs. Rhoda Wells or
some of her people, the C. I. & W.
railway physicians plan to amputate
the left foot of little Lewis Chester
Wells.

The little boy was removed to the
Deaconess hospital in Indianapolis
last evening. At the same time his
mother was taken to the home of
her father, Alva Noble in Arlington.

The railway physicians refuse to
operate unless proper authority is
given and if this is obtained the
operation will likely be performed
tonight.

It is stated that every minute's
delay lessens his chances of living
and that the only way to save his
life is to amputate. The railway
doctors want the permission to op-
erate for future protection against
any possible damage suits.

The accident occurred one week
ago yesterday. The mother was so
greatly improved that it was
thought best to move her. It is plan-
ned to take the little boy's left foot
off just above the ankle.

If the mother gets well, it will be
nothing short of remarkable, be-
cause physicians did not hold out
any hope for her recovery. She lay
in a comatose state for twelve hours
after the accident and then for two
or three days afterwards did not
arouse from the stupor only occa-
sionally.

Although the boy's injuries did
not appear to be as serious because
he was not unconscious, physicians
said at the first that it would take
months for him to mend and that he
would be a cripple for life even
though blood poisoning did not de-
velop and make amputation neces-
sary.

TAX FROM ESTATE IS \$307

Appraiser Finds Value of Tompkins
Property to be \$38,702.34

Judge Sparks has approved the
report of Henry Schrader, inheri-
tance tax appraiser, on the estate
of the late John W. Tompkins. The
estate was found to be valued at
\$38,702.34. Of this amount \$27,-
150 was in real estate and \$11,-
552.34 in personal property. The
court found that the amount due
the state as tax from the estate is
\$307. The estate is divided equally
between the four children.

John Fagen of Brazil Celebrates
Labor Day by Rifling Clothes
at Boarding House

THE POLICE NOTIFY BRAZIL

The police are looking for John
Fagen of Brazil, Ind., wanted on a
charge of petit larceny. Fagen has
been employed here on the construc-
tion gang putting in the first street
paving and yesterday stole the sum
of five dollars from two of his fel-
low workmen.

The theft occurred at the Ross
boarding house where the men are
staying. Fagen did not work yester-
day and when the men came in
from work in the evening they
found that their clothing had been
searched and the money taken. The
money was taken from two men.
Fagen left one of his victims the
sum of two cents and the other
three cents.

The police were called and noti-
fied Brazil as it was thought per-
haps he would return home.

FINISHES 17TH YEAR OF SERVICE

George Aultman, Carrier on Rural
Route 8, Made His First Trip
September 5, 1899

OLDEST IN STATE EXCEPT ONE

George Aultman, rural carrier on
route No. 8 out of the local office,
completed his seventeenth year of
service today. Mr. Aultman is now
the oldest carrier in point of ser-
vice in the local office and is one
of the oldest in the state. There
was one carrier starting in the
service before Mr. Aultman. This
was Frank Redman, who resigned
some time ago. Mr. Redman made
his first trip September 4, 1899 and
Mr. Aultman followed one day later,
September 5, 1899.

These two carriers were among
the first appointed in the state. So
far as Mr. Aultman has been able
to learn there is only one man in
the state that has been in service
longer than he and that man is in
Bartholomew county and has a re-
cord of 19 years of service.

BOYS HAVE INNING

Indianapolis, Ind., Sept. 5.—Hoos-
ier farmer boys had their inning at
the state fair here today when the
annual livestock and grain judging
contest was held. Any boy with
agricultural school training between
the ages of sixteen and twenty was
eligible. Four prizes of \$100, \$75,
\$50 and \$25 in scholarships at Pur-
due University were offered.

ARE HERE FOR A 2-DAY SESSION

County Councilmen Take up Budget
for Year Which Calls for
\$210,000 in Appropriations

MUST COME BACK TOMORROW

Law Does Not Allow More Than
\$15,000 to be Appropriated at
One Day's Session

The county council began its first
of a two day session this morning.
This meeting is by far the most im-
portant of the year for the council
as at this time the money necessary
to operate the county government
for next year will be appropriated.

The ordinance for these appropria-
tions was completed this afternoon
and read once. The ordinance is
then left until tomorrow for final
passage as the council cannot appro-
priate to exceed \$15,000 in a single
day.

Before reaching the appropriations
for next year the council will make
some appropriations covering defi-
ciencies for this year. These
amounts will be small. The budget
as presented to the council for ex-
pense next year calls for appropria-
tions totalling \$210,000.

A. M. Taylor, county clerk, appear-
ed before the council and asked
for an additional filing cabinet. The
clerk's office is crowded and to fix it
in the manner planned would require
about \$1,000. It is doubtful if the
appropriation will be made. Five
members of the county council were
present at the first day's session.

NO CERTAINTY WHEN BATTERY WILL MOVE

Llano Grande Camp Commander Or-
dered To Transmit Details
About Transportation.

NEWS RECEIVED WITH CHEERS

The news of the mustering out of
Battery B of the Indiana National
Guard, in which there are five Rush-
ville young men, has just been re-
ceived at Camp Llano Grande, ac-
cording to dispatches from that point.
The news was received with great
rejoicing and was greeted with the
Purdue yell and cheers. W. H.
Blodgett says in the News:

General E. M. Lewis, camp com-
mander, has been ordered to trans-
mit by wire to the war department
the number of men, the number of
horses and the gross weight of
equipment that must be transport-
ed for Battery B from Llano Grande
to Ft. Benjamin Harrison. The same
kind of order was received concern-
ing Battery F, of the Minnesota
artillery, which is also a student or-
ganization.

Nothing in the order to General
Lewis refers to the Indiana Univer-
sity Band, which is also a student
organization, or does the order re-
fer to students of Wabash, DePauw,
Hanover and other schools and col-
leges who enlisted in the Indiana
units as individuals. On the face
of this order it seems the battery
from Purdue will be sent home, re-
quired to turn in its government
property and leave the national
guard service and that Purdue un-
iversity will not receive govern-
ment aid in maintaining a national
guard organization.

Just when Battery B will go home
is not known, but the opinion is
that the war department desires this
information as a basis for bids from
the railways to transport the battery
and its equipment, and if that is
the purpose, it will be ten days or
two weeks before the order to move
comes.

STRIKES AGAIN AT BLACK LIST

Congress Adopts Two Amendments
to Revenue Bill Which are
Retaliatory Measures

POWER GIVEN TO PRESIDENT

Citizens of Foreign Countries That
Discriminate to be Denied
Facilities Here

(By United Press.)

Washington, Sept. 5.—With the
allied diplomats in Washington pro-
testing against a retaliatory legisla-
tion already enacted by congress to
offset the British black list, the sen-
ate today struck two more blows.

The first act today was passage
of Senator Thomas' amendment to
the revenue bill empowering the
president to retaliate against any
belligerent ship that discriminates
against any American commerce
ship.

The second was adoption of Sen-
ator Phelan's amendment to the
same measure refusing the rights of
the United States mails or the facili-
ties of any interstate express com-
pany or of any wireless, telegraph
or cable company to the citizens of
belligerent countries which discrim-
inate against Americans.

Both amendments explicitly em-
power the President to take the
steps, "whenever, during existence
of a war in which the United States
is not engaged, the president shall
be satisfied there is a reasonable
ground to believe" belligerents have
denied all lawful rights to all Am-
erican citizens.

Violations of both proposed laws
are punishable by fines of \$10,000
or two years imprisonment or both.
Both admittedly are retaliatory
measures.

PAPERS ARE MADE OUT

William Swezey, the Greensburg
youth, sentenced to from 1 to 14
years at the state reformatory, may
be taken to Jeffersonville tomorrow.
The necessary papers are all made out
and are waiting the signature of
Judge Sparks. Judge Sparks was
out of the city today, but will sign
them as soon as he returns.

GET YOUR BEARD
TRIMMED A LA HUGHES
Richmond, Ind., Sept. 5.—
If you have a fair supply of
whiskers you can for five cents
extra have them done over to
resemble those worn for some
years past by ex-Justice
Hughes. An enterprising bar-
ber of this city is prepared to
trim any batch of facial
hedgeweeds into a speaking
likeness of the republican
nominee.
The barber claims he has
made a special study of the
Hughes beard, its origin and
early days and the influence of
its early life. So far, due, he
says, to a decadence in whis-
kers as facial ornament, he
has done a rushing business in
beards a la Hughes.

REVIVALIST COMING SOON

W. R. Corter of Leginer, Pa., Will
Take Charge at Arlington

The Rev. W. R. Corter of Leginer,
Pa., will take charge of the re-
vival services Wednesday night at
the Arlington Christian church. The
Rev. Mr. Corter will be assisted by
Homer Cole of this city, who will
have charge of the singing. The re-
vival opened Sunday night with the
pastor, the Rev. D. L. Milligan in
charge. The Rev. W. R. Corter is
formerly of this county and has
conducted some successful revivals
here. The services will start each
evening at 7:30 o'clock.

MARY J. LOWDEN SUCCUMBS HERE

Native of Richland Township Dies
at Home of Her Daughter at
Age of 84 Years

FUNERAL WILL BE TOMORROW

Mrs. Mary J. Lowden, 84 years
old, a well known resident of this
city, died Monday afternoon at 4:15
o'clock at the home of her daugh-
ter, Mrs. Pinkney Dearing, 814
North Harrison street, following a
protracted illness from senility and
a complication of diseases. Mrs.
Lowden had been ill about eleven
weeks. Her home was in East Sixth
street, but when taken ill she was
removed to the home of her daugh-
ter.

Mrs. Lowden was a native of
Richland township and had lived in
this county all her life. She was the
widow of the late George Lowden.
She is survived by three children,
Mrs. Pinkney Dearing, Edward
Lowden of Walker township, and
Mrs. James Brown of Richland
township. The funeral services will
be conducted Wednesday morning
at ten o'clock at the Dearing resi-
dence by the Rev. W. M. Whitsitt
and burial will take place in East
Hill cemetery.

LOUISVILLE CROWD A DISAPPOINTMENT

Usual Station Crowd Present When
Hughes Train Arrives Today
And no Speech is Made

NOMINEE CONFERS WITH HERT

(By United Press.)
Louisville, Sept. 5.—Only the us-
ual railroad station crowd was on
hand here today when Charles E.
Hughes' car was backed in. There
were no cheers or other signs of
enthusiasm. The candidate is en-
route to Lexington, Ky., where he
was to speak today.

A. T. Hert, in charge of western
headquarters of the national com-
mittee, got aboard for a conference
with the nominee and the two re-
mained together in the governor's
private car during the half-hour
wait here.

The original plan had been for
Hughes to make a train speech but
apparently this idea was abandoned
because a crowd was missing. The
candidate did not show himself for
some time and no one at the station
seemed to care whether or not he
did.

(By United Press.)

Paris, Sept. 5.—The Germans
last night made several unsuccessful
attempts to recapture ground lost
to the French on both sides of the
Somme in the allied drive on Sunday
and Monday, it was officially an-
nounced today.

Field Marshal von Hindenburg
has arrived on the western front for
the first time since the beginning of
the war and is urging his command-
ers to a more stubborn defense
along the Somme, the Echo de Paris
stated today.

Von Hindenburg witnessed the re-
treat of the German armies under
smashing British and French blows
in Sunday's and Monday's fighting.

Kentucky Carlsbad Spring Water

Herald of Health

Nature's True Remedy

Scientists tell us that our bodies are composed of only 5 per cent solid matter and 95 per cent water.

A great physiologist said that pain is the prayer of the nerves for pure water.

Obviously the amount of water we drink has much to do with vigor and health of our flesh, muscles and nerves.

The use of Kentucky Carlsbad Mineral Water has become so general and the almost miraculous cures effected by it are so fully recognized by the medical profession and the public that we do not hesitate to make the following sweeping guarantee:

If you are afflicted with Bright's Disease, Kidney, Liver, Bladder and Stomach Trouble, Catarrh of the Head or Bowels and Intestinal troubles and will drink Kentucky Carlsbad Water according to directions for a period of ten days or two weeks, we or the dealer who sold you the water will refund to you all the money you paid for it, if you are not satisfied with the results.

The Kentucky Carlsbad Springs Company own and conduct the Carlsbad Hotel and Sanitorium at Dry Ridge, Kentucky, where these diseases mentioned previously are treated with wonderful success. For rheumatism to be entirely relieved, it is necessary to bathe in the water at the Springs as well as to drink it.

The Hotel, under the new management, has been newly renovated and is "spic and span."

TRACTION HEADS HAD MADE PLANS

Considered Offering Bonus To Employees If Railroad Strike Had Been Carried Out

ACCOUNT OF MORE BUSINESS

Interurban Chiefs Did not Predict They Would Have Been More Than Drop in Bucket

By DAN L. BEEBE (U. P. Staff Correspondent.)

Indianapolis, Ind., Sept. 4.—Fearing that any national railroad strike might spread to the interurban systems, and realizing that with the steam roads idle the facilities of the interurbans would be taxed to the utmost in every department, interurban chiefs in this city were seriously considering offering a bonus or temporary increase in wages to traction employees. Such increases would hold only until normal transportation conditions were established.

Arguments used by those officials favoring such a move were that a bonus would tend to make the employees less approachable by brotherhood strikers in case an attempt were made to tie up the interurbans also; and that the increased business thrust upon the interurbans would tax the employees to such an extent that a temporary increase would be warranted. Such a move was made by the subway lines in New York during the strike in the surface lines there. The bonus in that case was one dollar a day.

Although Indianapolis is the center of the most extensive interurban development in the world, this city and Indiana have received slight assurances that the interurbans would be able to alleviate the terrors of the railroad strike.

This fact does not come from any lack of desire on the part of the interurban chiefs to serve the public, but from the fact that the interurbans are not equipped to handle much more business either in passengers or freight than they handled previously. The interurbans are not equipped to handle the freight in carload lots. They would be forced to confine their efforts largely to package freight as under normal conditions.

If the railroad strike did not involve the passenger service, some passenger equipment of the interurban lines could be transferred to the freight department, but the interurbans' passenger business would be increased correspondingly with the freight business, so that no transfer would be possible.

Although every wheel available would be attached to the current the interurban chiefs here did not predict that they would be more than a drop in the bucket of standard traffic. They point out that under normal conditions the interurbans were extremely busy, and that being a comparatively new industry they could not be expected to have developed an organization that would relieve pressure when their mammoth rivals were stationary.

But the interurban could do much towards caring for the vital necessities. A traveler who must reach his destination can go from Indianapolis to Chicago, and Milwaukee, St. Joseph, Kalamazoo and Grand Rapids; Fort Wayne, Toledo and Detroit; Dayton, Springfield, O.; Columbus, Cleveland, and Buffalo. A tiresome and roundabout journey would take the traveler to Pittsburgh, Cincinnati and Louisville are easily reached, but a jitney must be used between Sullivan and Patoka to reach Evansville. Another jitney bridging a short space between Paris and Danville, Ill., will allow connections with Springfield, Ill., and Chicagoans who care to reach Springfield may do so via Indianapolis.

Such long trips, however, were not recommended by the interurban officials, who point out that with traffic congested as never before, they would be impracticable for ordinary purposes.

Several from this vicinity attended the Shelbyville fair this last week. Mr. and Mrs. Freeling of Clarks-

STRIKE WOULD HAVE HIT PAPERS HARD

If it Had Been Called, Many Would Have Reduced Their Size Immediately

ARE SHORT OF PAPER ANYWAY

(By United Press.)

Indianapolis, Ind., Sept. 5.—One half of the smaller daily newspapers in Indiana would go to two pages within two weeks if the railroad strike had been called. This prediction was made to the United Press today by an up-state publisher in a city of 15,000, who said he knew the white paper situation in cities the size of his and smaller.

"If the strike continued much more than two weeks, the dailies would have to reduce the size of the one sheet, printing news on one side and advertising on the other," he said. "The papers might come to be mere handbills, following the expedient adopted by Paris newspapers after the war broke out."

"I have enough paper on hand to supply me for two weeks at the present outgo," he said. "It would be impossible to get white paper during a strike. If it appeared that congress wouldn't be able to stop the strike, I would have reduced my paper at once from eight pages to two pages, with advertising on one side and news on the other. I would increase advertising rates temporarily, except where I have contracts. By these expedients I would conserve my supply of white paper until the freight cars were running again."

Few small dailies have white paper on hand for more than two weeks supply, he said. They have been living a hand-to-mouth existence because of the shortage of white paper under normal transportation conditions.

The Gem will show the tenth episode of "Peg O' the Ring" for the first picture tonight. This one is entitled "In the Hands of the Enemy" and is said to be a thrilling picture. The second is a two reel comedy entitled "Tammany's Tiger." Marie Walcamp and Lee Hill are featured. The last is a drama "Brother Jim." Thomas Jefferson and Lena Baskette are featured.

The Princess theater will present a well balanced program tonight with the drama "The Ancient Blood" and the comedy, "Ham the Explorer." Virginia Nordon will be seen in the drama, dealing with the love affairs of a young Englishman who becomes enamored with a halfbreed Indian girl. Ham and Bud, the two famous comedians, will play in the comedy. For tomorrow matinee and night the Princess offers Violet Horner in "The Marble Heart."

The infant child of Mr. and Mrs. Charles Sorrell, who died yesterday at their home in West First street, was buried this afternoon in East Hill cemetery.

Drugs Cost Three Times as Much as in U. S. and House Rent is Raised To Limit.

CAKE OF SOAP COSTS \$1.71

Average Argentino is Not Paid For His Work in Proportion to Living Expenses.

BY CHARLES P. STEWART.

Buenos Aires, Argentina, Aug. 1. —(By Mail)—A cake of toilet soap retailing at 25c in the United States costs \$1.71 here. This is typical of Argentine prices generally. They are perfectly terrific, stupefying, incredible.

Drugs cost three to four times what they cost in North America, ordinary tooth brushes 80 cents each, everyday gloves \$7 a pair.

A 4-room, steam heated flat in a good, but not aristocratic part of this city, cannot be had for less than \$110 a month. A similar flat, minus the heat, may be had at \$52.80. There are four or five months here during which heat must be had; and Cardiff coal, practically the only kind on the market, costs from \$28.16 to \$32.80; sometimes a bit more.

In the remote suburbs tiny little boxes of houses may be rented for \$32.50 a month, sans heat, sans light, sans everything else except four walls. These quarters are too far away from the business center to be considered by a man whose business hours are at all exacting. Expensive heating and lighting must also be considered. Transportation is cheap. If he can spare the time, he can travel twice daily for \$4.40 a month.

Meat is not high, as Argentina is a meat country. The very fanciest cuts of beefsteak may be had at 25 cents a pound. Ribs and rump steaks cost 17½ cents a pound, mutton 13, veal 30½ cents and pork 22 cents.

Other items of household expense will be about like this: Butter 44, tea 39½, granulated sugar, 11c., chickens 35 cents a pound.

Milk costs 8 cents a quart. Eggs are 48 cents a dozen. Potatoes cost 35 cents for 22 pounds. Oranges are 66 cents a dozen, bananas 22 cents a dozen and apples 6 cents each.

A suit which would cost \$25 in New York or Chicago or San Francisco, costs \$45 in Buenos Aires. A pair of \$5 or \$6 American shoes costs \$15. A \$3 American hat costs between \$6 and \$7. An ordinary suit of winter underclothing costs \$10. United States money.

The man who buys his wife a not ever-fashionable walking suit must pay \$50 for it. If she is not too particular, he can get her a bonnet for \$20.

If he wants to keep up with the news, each paper costs him 4 cents. The price of a 15 cent American magazine is 25 cents.

The beer is good but it costs 13 cents per glass. A waiter must bring each glass to a small table and every time he expects a tip of 4 cents. Whiskey including the tip is 22 cents a glass.

There is practically no such thing as a cigar for less than 8 cents and these are practically unsmokable. Havana cigars cost from 44 cents up.

The man who falls ill will have to pay an ordinary family doctor \$5 a visit. If his teeth hurt him, it will cost him \$5 an hour to have repairs made, unless he goes to an expensive dentist, in which case there is practically no maximum limit.

People who like to keep clean must pay their washerwoman approximately the same prices as are charged by the highest-priced New York laundries.

Roughly speaking, it costs about twice as much to live in Buenos Aires as it costs to live, not perhaps

in New York, but in Chicago.

A citizen of the United States who goes to the Argentine metropolis to live, on the same salary he received at home, may consider that his income has been cut in two, and will be financially wise if he readjusts his expenditures accordingly.

Living expenses are higher in Argentina than in any other country in South America.

In Brazil the average is only a little higher than in the United States. Chile and the countries in the South American north are rather cheap. This does not refer to all commodities. Some articles are very expensive. It applies, however, to the average cost of living.

As an offset against their lower prices, incomes are generally lower in the countries where living is cheap.

Why prices are so high in Argentina is not entirely clear. For one

Strike is Settled

The strike that was threatened by the railroad employees of the country has been averted, at any event for the time being, by the passage by congress of a law compelling the railways to pay the same wages for an 8-hour day that they have been paying for a 10-hour day, and pro rata for over time. Whether or not the railway employees were entitled to this increase no one knows, because President Wilson made no effort to investigate that phase of the question, and because neither he nor the labor unions would allow Congress time to investigate it. The only evidence on the subject is, therefore, ex parte, the statement of the railway brotherhoods. That the railway men were entitled to a share of the prosperity which this country is enjoying just now as a result of the European war is pretty generally believed, but whether they will receive, under Congress' ill-considered and hastily enacted legislation, their just share, or more or less, no man knows. There is not even the statement of President Wilson on the subject because, instead of devoting himself to that side of the controversy, Mr. Wilson preferred to mislead the public, or to attempt to, and immediately espoused the cause of "the 8-hour day" when the 8-hour day was not

ARE MEDICINES LIQUORS?

A certain class of prejudiced and jealous doctors call patent medicines only alcoholic beverages. They will tell you that such and such a medicine contains as much alcohol as a glass of beer or a certain quantity of whiskey; but they do not mention that the beer or whiskey is swallowed at one draught, while only a small quantity of the medicine is taken at one dose. At the same time they will use alcohol quite as freely and many in four or five times as great proportions in their own prescriptions.

Such standard remedies as Lydia E. Pinkham's Vegetable Compound use barely enough alcohol to preserve the root and herb extractives; too little to have injurious effects; and the medicine can be had, if desired, in a non-alcoholic form.—(Adv.)

involved at all, and the only question at issue between the railroads and their employees was the amount of compensation which the latter should receive. Some measure of satisfaction is found in the situation because the enactment of the legislation and the prevention of the strike accords with the view which many had all along entertained. It was figured that, in view of the injury which would have resulted to the Democratic party from a general strike, neither Mr. Wilson nor the Democratic majorities in congress would permit such a strike regardless of what steps might be necessary to avert it.

The New York Times, the ablest Democratic paper in New York, is not satisfied with Mr. Wilson's settlement of the railway strike. Under the heading "Where it Leads," the Times says, "In this Republic laws express the people's will, but in the making of this law to increase the pay of one-quarter of the railway employees the people have not had the slightest chance to make known their desire. Their Congress was coerced by the threat of an immeasurable injury to themselves. What Lynch law is to orderly judicial process the method adopted by the brotherhoods, and we have very much regret in saying with too much assistance from the President, is to a constitutional method of law-making. The brotherhoods look on Mr. Wilson as their friend. They may have harmed him vastly more than he has helped them. Such a spirit as has been aroused in this country at this time, in the midst of a Presidential campaign, is not of good political augury for a party in power."

President Wilson has been notified of and has accepted the nomination for another presidential term. In his speech of acceptance, among many other things, Mr. Wilson failed to mention that plank in the platform on which he was elected which declared for a single term for presidents.

HOOSIER BRIEFS.

Shelbyville.—The hero had just discovered the villain and was getting ready to put him out of the film with one mighty blow and with the accompanying appropriate music when the music stopped suddenly. Miss Delsie Farrell, pianist at the Coza theater, had dislocated her jaw as the result of a prodigious yawn.

Gary.—Four Gary boys are in line for appointment as members of the Gary police force. Several homes in the southern part of the city have been broken into and everything turned topsy-turvy. Police knew it to be the work of a boy but it remained for the four boys to run down the culprit, overpower him and march him to a police station.

Greensburg.—To go to bed at night upon a downy couch and to wake up in the dead of the night to feel the jaws of a large trap quickly closing about you was the experience of William Warren of Sandusky the other night.

A bad dream caused him to roll over and his folding bed closed in upon him. As his family were extricating him a mirror tipped over on Warren's head, cutting a deep gash in his scalp.

REUNION HELD

(By United Press.)
 Indianapolis, Ind., Sept. 5.—Not as a jubilee over the indictments which they returned but in order to renew the friendships formed during the long time they were held together members of the grand jury which brought indictments against Donn Roberts and other Terre Haute election fraud conspirators met at Riverside Park here for their annual reunion.

Frank C. Dailey, former United States district attorney, Milton W. Mangus, assistant district attorney and Charles LeSelle, court bailiff during the grand jury sessions, were the only outside guests at the reunion.

Harrie Jones' First Race This Year and Horse's First Start of his Life is Winner

DIAMOND Q. TAKES 2:25 PACE

Harrie Jones' first race of the season and his horse's first race of his life furnished a combination that couldn't be beaten in the 2:25 pace at the state fair in Indianapolis yesterday. Diamond Q., a four-year-old, was driven the first real race of his young life by the Rushville trainer and showed that he had lots of speed. He drew twelfth position in the first heat, but by a daring drive from the outside of the track, Jones took him across in front of the whole field at the getaway and took the pole before the horses were around the first turn. Jones came in both heats pulled up, in 2:07½ and 2:07½.

The Rushville trainer did not do much good with The Importer in the 2:09 pace, finishing eighth twice and sixth the last heat. Fay Richmond, a gray gelding which was last year in Jones' stable, won the feature race of the day, the 2:03 pace, in sensational style. Fay Richmond was sold to his present owners last fall after Jones won with him at Lexington. He is a colt of New Richmond's a stallion which was formerly raced by Jones.

GOSNELL SEVENTH IN HISTORY TO MARK TWO-MINUTE PACER

(Cleveland Leader, Sept. 3)

Curt Gosnell, veteran trainer and widely known throughout the horse world as one of the most skillful teamsters of the twice-arounds, and also during the last two seasons as the man who made Single G. one of the greatest pacers that ever appeared on the Grand Circuit, died yesterday morning at St. Alexis hospital as a result of injuries incurred nine days ago while working the pacing mare, Hazel Armstrong, at North Randall.

Gosnell never recovered consciousness after the accident, which was caused by the mare hitting herself while rounding the turn, catching in her hobbles, falling and then crushing and kicking Gosnell in her efforts to extricate herself from the tangle.

Ever since, Gosnell has been in a comatose condition. William Barefoot, of Cambridge City, Ind., owner of Single G., called in specialist after specialist in a vain hope that Gosnell's life could be saved. But all human effort was unavailing and at 10:45 yesterday morning Gosnell quietly and peacefully passed away.

For many years Gosnell trained a large public stable at Cambridge City, and annually had one of the best stables that campaigned down the leading half-mile circuits, but last season moved to Muncie, Ind.

He had not been in the best of health for some years and in 1914 was kept out of the sulky most of the time through sickness and it was currently reported that that illness had been fatal. Curt later laughingly said that he had read in the

Deliciously Fragrant Coffee

The flavor of San Marto Coffee is well known in Rushville and Rush County. Hundreds of people will testify that it is the best 30 cent Coffee they ever used.

Premium coupons are not necessary to make San Marto sell. The money spent for premiums by some firms is put in the quality of San Marto Coffee. When you buy a pound of San Marto for 30 cents you get a pound of 30 cent coffee, not a 27 cent coffee and possibly a 3 cent spoon.

CLASS 1896

The class of 1896 of the Glenwood high school held their first and only reunion at the home of Mr. and Mrs. Chester Beaver one mile north of Glenwood yesterday. The dinner was furnished by the five members living in the immediate neighborhood. Those present were Mr. and Mrs. Chester Beaver, Fred McCarty and family, Mrs. Charles Brooks and son, Mrs. Eva Jensen and sons of Cincinnati, Mrs. John Culbertson and daughter of Indianapolis and Arie M. Taylor of this city, who was the teacher at the time of the graduation. The only two of the nine graduates not present were Allan Wiles, an attorney of Connorsville, and Mrs. G. G. Richardson of Van Buren, Ind.

The day was spent in recalling events of school days.

Mrs. Lizzie Borem of West Ninth street entertained with a dinner Sunday the following guests: Mr. and Mrs. Frank Borem and children, Mr. and Mrs. Ed Borem and children, Mr. and Mrs. Mike McFarbridge, Mr. and Mrs. William Larabee and daughter, Mr. and Mrs. Clarence Borem and children, Mr. and Mrs. Bob Borem and baby, Mr. and Mrs. Luther Schuck, Mr. and Mrs. John Borem and Mr. and Mrs. Maurice Borem.

Continued from Page 3.
thing, the country's population is small and it has plenty of money, so that, if the cash were evenly distributed, the per capita wealth would be high. Furthermore, it is not a manufacturing country. It lacks workmen in sufficient numbers, it has little water power and it has almost no fuel. There is considerable prospecting for oil. If it should be found in adequate quantities, it will be a God-send and ought to make billionaires of the discoverers. In the meantime, manufactured articles have to be brought from a long way off, which costs money.

Finally, internal transportation facilities are primitive and shipping plying to foreign ports, is in a few hands.

To a considerable extent, however, it looks as if it is expensive to live in Argentina simply because the people who furnish the necessities of life are able to extort the money.

The average Argentine is not paid for his work in proportion to what he has to pay for his living.

A comparatively small number of men, mostly cattle and wheat kings, make huge sums. There is a fair proportion of rich middlemen. A great deal of the big money, the country produces belongs to foreign investors and goes abroad.

A salaried man is considered in possession of a good round income if he receives \$150 to \$200 monthly. Of course this does not go nearly so far as it would in the United States.

A first class printer or locomotive engineer may make as high as \$175 monthly.

Bricklayers are paid from \$2.50 to \$3.50 daily but do not have work all the time. A carpenter, who also has periods of unemployment, earns from \$1. to \$2.50 daily.

There is a wide variation, according to season, in what an unskilled laborer receives. At times he gets as low as 30 pesos and at others as high as 80 pesos monthly, or, in United States money, from \$13.20 to \$35.20.

On a farm, it is possible to imagine how a man might live on the latter of these two sums, even in Argentina. How he succeeds in doing it in Buenos Aires, and how, in particular, he succeeds in doing it part of the time on \$13.20 per month is a puzzle.

It seems to be the consensus of opinion that he can get enough of a poor quality of food but that his shelter is such as would revolt a self-respecting hog in the United States. He wears whatever clothes he can pick up.

EMBROIDERY ON BLOUSE

The vogue of hand embroidery is a blessing for many reasons in that a very exclusive touch can be given to a garment. After examining the prices charged for embroidered blouses and frocks a woman can appreciate the worth of her own hand-embroidered garments.

At the present time there is a very unusual way of treating the blouse. The right side of closing is scalloped and decorated with tiny sprays. The edge of the collar and cuffs is stamped in like manner. Beneath the stamped portion a piece of colored material, blue or lavender is sewed, sufficient being provided to extend beyond the scalloped edge. The embroidering is done through the two thicknesses of material. In order that the attached piece will be effective the blouse should be white so that the idea will gain beauty by force of contrast.

WILL AMPUTATE THE BOY'S FOOT

Little Lewis Chester Wells is Re-
moved to Deaconess Hospital
in Indianapolis

PERMISSION TO BE OBTAINED

C. I. & W. Wants to Protect Itself
Against Damage Suit—Mrs.
Wells Taken Home

Just as soon as permission is ob-
tained from Mrs. Rhoda Wells or
some of her people, the C. I. & W.
railway physicians plan to amputate
the left foot of little Lewis Chester
Wells.

The little boy was removed to the
Deaconess hospital in Indianapolis
last evening. At the same time his
mother was taken to the home of
her father, Alva Noble in Arlington.

The railway physicians refuse to
operate unless proper authority is
given and if this is obtained the
operation will likely be performed
tonight.

It is stated that every minute's
delay lessens his chances of living
and that the only way to save his
life is to amputate. The railway
doctors want the permission to op-
erate for future protection against
any possible damage suits.

The accident occurred one week
ago yesterday. The mother was so
greatly improved that it was
thought best to move her. It is plan-
ned to take the little boy's left foot
off just above the ankle.

If the mother gets well, it will be
nothing short of remarkable, be-
cause physicians did not hold out
any hope for her recovery. She lay
in a comatose state for twelve hours
after the accident and then for two
or three days afterwards did not
arouse from the stupor only occa-
sionally.

Although the boy's injuries did
not appear to be as serious because
he was not unconscious, physicians
said at the first that it would take
months for him to mend and that he
would be a cripple for life even
though blood poisoning did not de-
velop and make amputation neces-
sary.

Appraiser Finds Value of Tompkins
Property to be \$38,702.34

Judge Sparks has approved the
report of Henry Schrader, inheri-
tance tax appraiser, on the estate
of the late John W. Tompkins. The
estate was found to be valued at
\$38,702.34. Of this amount \$27,-

THE POLICE NOTIFY BRAZIL

The police are looking for John
Fagen of Brazil, Ind., wanted on a
charge of petit larceny. Fagen has
been employed here on the construc-
tion gang putting in the First street
paving and yesterday stole the sum
of five dollars from two of his fel-
low workmen.

The theft occurred at the Ross
boarding house where the men are
staying. Fagen did not work yester-
day and when the men came in
from work in the evening they
found that their clothing had been
searched and the money taken. The
money was taken from two men.
Fagen left one of his victims the
sum of two cents and the other
three cents.

The police were called and noti-
fied Brazil as it was thought per-
haps he would return home.

FINISHES 17TH YEAR OF SERVICE

George Aultman, Carrier on Rural
Route 8, Made His First Trip
September 5, 1899

OLDEST IN STATE EXCEPT ONE

George Aultman, rural carrier on
route No. 8 out of the local office,
completed his seventeenth year of
service today. Mr. Aultman is now
the oldest carrier in point of ser-
vice in the local office and is one
of the oldest in the state. There
was one carrier starting in the
service before Mr. Aultman. This
was Frank Redman, who resigned
some time ago. Mr. Redman made
his first trip September 4, 1899 and
Mr. Aultman followed one day later,
September 5, 1899.

These two carriers were among
the first appointed in the state. So
far as Mr. Aultman has been able
to learn there is only one man in
the state that has been in service
longer than he and that man is in
Bartholomew county and has a re-
cord of 19 years of service.

ARE HERE FOR A 2-DAY SESSION

County Councilmen Take up Budget
for Year Which Calls for
\$210,000 in Appropriations

MUST COME BACK TOMORROW

Law Does Not Allow More Than
\$15,000 to be Appropriated at
One Day's Session

The county council began its first
of a two day session this morning.
This meeting is by far the most im-
portant of the year for the council
as at this time the money necessary
to operate the county government
for next year will be appropriated.

The ordinance for these appropri-
ations was completed this afternoon
and read once. The ordinance is
then left until tomorrow for final
passage as the council cannot appro-
priate to exceed \$15,000 in a single
day.

Before reaching the appropriations
for next year the council will make
some appropriations covering defi-
ciencies for this year. These
amounts will be small. The budget
as presented to the council for ex-
pense next year calls for appropria-
tions totalling \$210,000.

A. M. Taylor, county clerk, appear-
ed before the council and asked
for an additional filing cabinet. The
clerk's office is crowded and to fix it
in the manner planned would require
about \$1,000. It is doubtful if the
appropriation will be made. Five
members of the county council were
present at the first day's session.

NO CERTAINTY WHEN BATTERY WILL MOVE

Llano Grande Camp Commander Or-
dered To Transmit Details
About Transportation.

NEWS RECEIVED WITH CHEERS

The news of the mustering out of
Battery B of the Indiana National
Guard, in which there are five Rush-
ville young men, has just been re-
ceived at Camp Llano Grande, ac-
cording to dispatches from that point.
The news was received with great
rejoicing and was greeted with the
Purdue yell and cheers. W. H.
Blodgett says in the News:

General E. M. Lewis, camp com-
mander, has been ordered to trans-
mit by wire to the war department
the number of men, the number of
horses and the gross weight of
equipment that must be transport-
ed for Battery B from Llano Grande
to Ft. Benjamin Harrison. The same
kind of order was received concern-
ing Battery F, of the Minnesota
artillery, which is also a student or-
ganization.

Nothing in the order to General
Lewis refers to the Indiana Univer-
sity Band, which is also a student
organization, or does the order re-
fer to students of Wabash, DePauw,
Hanover and other schools and col-
leges who enlisted in the Indiana
units as individuals. On the face
of this order it seems the battery
from Purdue will be sent home, re-
quired to turn in its government
property and leave the national
guard service and that Purdue un-
iversity will not receive govern-
ment aid in maintaining a national
guard organization.

Just when Battery B will go home
is not known, but the opinion is
that the war department desires this
information as a basis for bids from
the railways to transport the battery
and its equipment, and if that is
the purpose, it will be ten days or
two weeks before the order to move
comes.

STRIKES AGAIN AT BLACK LIST

Congress Adopts Two Amendments
to Revenue Bill Which are
Retaliatory Measures

POWER GIVEN TO PRESIDENT

Citizens of Foreign Countries That
Discriminate to be Denied
Facilities Here

(By United Press.)
Washington, Sept. 5.—With the
allied diplomats in Washington pro-
testing against a retaliatory legisla-
tion already enacted by congress to
offset the British black list, the sen-
ate today struck two more blows.

The first act today was passage
of Senator Thomas' amendment to
the revenue bill empowering the
president to retaliate against any
belligerent ship that discriminates
against any American commerce
ship.

The second was adoption of Sen-
ator Phelan's amendment to the
same measure refusing the rights of
the United States mails or the facili-
ties of any interstate express com-
pany or of any wireless, telegraph
or cable company to the citizens of
belligerent countries which discrimi-
nate against Americans.

Both amendments explicitly em-
power the President to take the
steps, "whenever, during existence
of a war in which the United States
is not engaged, the president shall
be satisfied there is a reasonable
ground to believe" belligerents have
denied all lawful rights to all Amer-
ican citizens.

Violations of both proposed laws
are punishable by fines of \$10,000
or two years imprisonment or both.
Both admittedly are retaliatory
measures.

PAPERS ARE MADE OUT

William Swezey, the Greensburg
youth, sentenced to from 1 to 14
years at the state reformatory, may
be taken to Jeffersonville tomorrow.
The necessary papers are all made out
and are waiting the signature of
Judge Sparks. Judge Sparks was
out of the city today, but will sign
them as soon as he returns.

derburg county will not be repre-
sented by a float or in any other

ment today by A. W. Sevringhaus,
chairman of the County centennial
committee.

man Army officer who escaped from
the Federal Penitentiary here Aug.

ter.

GET YOUR BEARD

TRIMMED A LA HUGHES

Richmond, Ind., Sept. 5.—
If you have a fair supply of
whiskers you can for five cents
extra have them done over to
resemble those worn for some
years past by ex-Justice
Hughes. An enterprising bar-
ber of this city is prepared to
trim any batch of facial
hedgeweeds into a speaking
likeness of the republican
nominee.

The barber claims he has
made a special study of the
Hughes beard, its origin and
early days and the influence of
its early life. So far, due, he
says, to a decadence in whis-
kers as facial ornament, he
has done a rushing business in
beards a la Hughes.

MARY J. LOWDEN SUCCEUMBS HERE

Native of Richland Township Dies
at Home of Her Daughter at
Age of 84 Years

FUNERAL WILL BE TOMORROW

Mrs. Mary J. Lowden, 84 years
old, a well known resident of this
city, died Monday afternoon at 4:15
o'clock at the home of her daugh-
ter, Mrs. Pinkney Dearing, 814
North Harrison street, following a
protracted illness from senility and
a complication of diseases. Mrs.
Lowden had been ill about eleven
weeks. Her home was in East Sixth
street, but when taken ill she was
removed to the home of her daugh-
ter.

Mrs. Lowden was a native of
Richland township and had lived in
this county all her life. She was the
widow of the late George Lowden.
She is survived by three children,
Mrs. Pinkney Dearing, Edward
Lowden of Walker township, and
Mrs. James Brown of Richland
township. The funeral services will
be conducted Wednesday morning
at ten o'clock at the Dearing resi-
dence by the Rev. W. M. Whitsitt
and burial will take place in East
Hill cemetery.

LOUISVILLE CROWD A DISAPPOINTMENT

Usual Station Crowd Present When
Hughes Train Arrives Today
And no Speech is Made

NOMINEE CONFERS WITH HERT

(By United Press.)
Louisville, Sept. 5.—Only the us-
ual railroad station crowd was on
hand here today when Charles E.
Hughes' car was backed in. There
were no cheers or other signs of
enthusiasm. The candidate is en-
route to Lexington, Ky., where he
was to speak today.

A. T. Hert, in charge of western
headquarters of the national com-
mittee, got aboard for a conference
with the nominee and the two re-
mained together in the governor's
private car during the half-hour
wait here.

The original plan had been for
Hughes to make a train speech but
apparently this idea was abandoned
because a crowd was missing. The
candidate did not show himself for
some time and no one at the station
seemed to care whether or not he
did.

Forward 1,500 Yards

(By United Press.)
Paris, Sept. 5.—The Germans
last night made several unsuccessful
attempts to recapture ground lost
to the French on both sides of the
Somme in the allied drive on Sunday
and Monday. It was officially an-
nounced today.

Field Marshal von Hindenburg
has arrived on the western front for
the first time since the beginning of
the war and is urging his command-
ers to a more stubborn defense

Kentucky Carlsbad
Spring Water

Herald of Health

Nature's True Remedy

Scientists tell us that our bodies are composed of only 5 per cent solid matter and 95 per cent water.

A great physiologist said that pain is the prayer of the nerves for pure water.

Obviously the amount of water we drink has much to do with vigor and health of our flesh, muscles and nerves.

The use of Kentucky Carlsbad Mineral Water has become so general and the almost miraculous cures effected by it are so fully recognized by the medical profession and the public that we do not hesitate to make the following sweeping guarantee:

If you are afflicted with Bright's Disease, Kidney, Liver, Bladder and Stomach Trouble, Catarrh of the Head or Bowels and Intestinal troubles and will drink Kentucky Carlsbad Water according to directions for a period of ten days or two weeks, we or the dealer who sold you the water will refund to you all the money you paid for it, if you are not satisfied with the results.

The Kentucky Carlsbad Springs Company own and conduct the Carlsbad Hotel and Sanitorium at Dry Ridge, Kentucky, where these diseases mentioned previously are treated with wonderful success. For rheumatism to be entirely relieved, it is necessary to bathe in the water at the Springs as well as to drink it.

The Hotel, under the new management, has been newly renovated and is "spic and span."

TRACTION HEADS
HAD MADE PLANS

Considered Offering Bonus to Employees if Railroad Strike Had Been Carried Out

ACCOUNT OF MORE BUSINESS

Interurban Chiefs Did not Predict They Would Have Been More Than Drop in Bucket

By DAN L. BEEBE
(U. P. Staff Correspondent.)

Indianapolis, Ind., Sept. 4.—Fearing that any national railroad strike might spread to the interurban systems, and realizing that with the steam roads idle the facilities of the interurbans would be taxed to the utmost in every department, interurban chiefs in this city were seriously considering offering a bonus or temporary increase in wages to traction employees. Such increases would hold only until normal transportation conditions were established.

Arguments used by those officials favoring such a move were that a bonus would tend to make the employees less approachable by brotherhood strikers in case an attempt were made to tie up the interurbans also; and that the increased business thrust upon the interurbans would tax the employees to such an extent that a temporary increase would be warranted. Such a move was made by the subway lines in New York during the strike in the surface lines there. The bonus in that case was one dollar a day.

Although Indianapolis is the center of the most extensive interurban development in the world, this city and Indiana have received slight assurances that the interurbans would be able to alleviate the terrors of the railroad strike.

This fact does not come from any lack of desire on the part of the interurban chiefs to serve the public, but from the fact that the interurbans are not equipped to handle much more business either in passengers or freight than they handled previously. The interurbans are not equipped to handle the freight in carload lots. They would be forced to confine their efforts largely to package freight as under normal conditions.

If the railroad strike did not involve the passenger service, some passenger equipment of the interurban lines could be transferred to the freight department, but the interurbans' passenger business would be increased correspondingly with the freight business, so that no transfer would be possible.

Although every wheel available would be attached to the current interurban chiefs here did not predict that they would be more than a drop in the bucket of standard traffic. They point out that under normal conditions the interurbans were extremely busy, and that being a comparatively new industry they could not be expected to have developed an organization that would relieve pressure when their mammoth rivals were stationary.

But the interurban could do much towards caring for the vital necessities. A traveler who must reach his destination can go from Indianapolis to Chicago, and Milwaukee, St. Joseph, Kalamazoo and Grand Rapids; Fort Wayne, Toledo and Detroit; Dayton, Springfield, O.; Columbus, Cleveland, and Buffalo. A tiresome and roundabout journey would take the traveler to Pittsburgh, Cincinnati and Louisville are easily reached, but a jitney must be used between Sullivan and Patoka to reach Evansville. Another jitney bridging a short space between Paris and Danville, Ill., will allow connections with Springfield, Ill., and Chicagoans who care to reach Springfield may do so via Indianapolis.

Such long trips, however, were not recommended by the interurban officials, who point out that with traffic congested as never before, they would be impracticable for ordinary purposes.

STRIKE WOULD HAVE
HIT PAPERS HARD

If it Had Been Called, Many Would
Have Reduced Their Size
Immediately

ARE SHORT OF PAPER ANYWAY

(By United Press.)

Indianapolis, Ind., Sept. 5.—One half of the smaller daily newspapers in Indiana would go to two pages within two weeks if the railroad strike had been called. This prediction was made to the United Press today by an up-state publisher in a city of 15,000, who said he knew the white paper situation in cities the size of his and smaller.

"If the strike continued much more than two weeks, the dailies would have to reduce the size of the one sheet, printing news on one side and advertising on the other," he said. "The papers might come to be mere handbills, following the expedient adopted by Paris newspapers after the war broke out."

"I have enough paper on hand to supply me for two weeks at the present output," he said. "It would be impossible to get white paper during a strike. If it appeared that congress wouldn't be able to stop the strike, I would have reduced my paper at once from eight pages to two pages, with advertising on one side and news on the other. I would increase advertising rates temporarily, except where I have contracts. By these expedients I would conserve my supply of white paper until the freight cars were running again."

Few small dailies have white paper on hand for more than two weeks supply, he said. They have been living a hand-to-mouth existence because of the shortage of white paper under normal transportation conditions.

CAKE OF SOAP COSTS \$1.71

Average Argentine is Not Paid For His Work in Proportion to Living Expenses.

BY CHARLES P. STEWART.
Buenos Aires, Argentina, Aug. 1. —(By Mail)—A cake of toilet soap retailing at 25c in the United States costs \$1.71 here. This is typical of Argentine prices generally. They are perfectly terrific, stupefying, incredible.

Drugs cost three to four times what they cost in North America; ordinary tooth brushes 80 cents each, everyday gloves \$7 a pair.

A 4-room, steam heated flat in a good, but not aristocratic part of this city, cannot be had for less than \$110 a month. A similar flat, minus the heat, may be had at \$52.80. There are four or five months here during which heat must be had; and Cardiff coal, practically the only kind on the market, costs from \$28.16 to \$32.80; sometimes a bit more.

In the remote suburbs tiny little boxes of houses may be rented for \$32.50 a month, sans heat, sans light, sans everything else except four walls. These quarters are too far away from the business center to be considered by a man whose business hours are at all exacting. Expensive heating and lighting must also be considered. Transportation is cheap. If he can spare the time, he can travel twice daily for \$4.40 a month.

Meat is not high, as Argentina is a meat country. The very fanciest cuts of beefsteak may be had at 25 cents a pound. Ribs and rump steaks cost 17½ cents a pound, mutton 13, veal 30½ cents and pork 22 cents.

Other items of household expense will be about like this: Butter 44, tea 39½, granulated sugar, 11c, chickens 35 cents a pound.

Milk costs 8 cents a quart. Eggs are 48 cents a dozen. Potatoes cost 35 cents for 22 pounds. Oranges are 66 cents a dozen, ban-nanas 22 cents a dozen and apples 6 cents each.

A suit which would cost \$25 in New York or Chicago or San Fran-cisco, costs \$45 in Buenos Aires. A pair of \$5 or \$6 American shoes costs \$15. A \$3 American hat costs between \$6 and \$7. An ordinary suit of winter underclothing costs \$10. United States money.

The man who buys his wife a not ever-fashionable walking suit must pay \$50 for it. If she is not too particular, he can get her a bonnet for \$20.

If he wants to keep up with the news, each paper costs him 4 cents. The price of a 15 cent American magazine is 20 cents.

The beer is good but it costs 13 cents per glass. A waiter must bring each glass to a small table and every time he expects a tip of 4 cents. Whiskey including the tip is 22 cents a glass.

There is practically no such thing as a cigar for less than 8 cents and these are practically unsmokable. Havana cigars cost from 44 cents up.

The man who falls ill will have to pay an ordinary family doctor \$5 a visit. If his teeth hurt him, it will cost him \$5 an hour to have repairs made, unless he goes to an ex-pensive dentist, in which case there is practically no maximum limit.

People who like to keep clean must pay their washerwoman ap-proximately the same prices as are charged by the highest-priced New York laundries.

Roughly speaking, it costs about twice as much to live in Buenos Aires as it costs to live, not perhaps

in New York, but in Chicago.

A citizen of the United States who goes to the Argentine metropo-lis to live, on the same salary he re-ceived at home, may consider that his income has been cut in two, and will be financially wise if he read-justs his expenditures accordingly.

Living expenses are higher in Ar-gentina than in any other country in South America.

In Brazil the average is only a little higher than in the United States. Chile and the countries in the South American north are rather cheap. This does not refer to all commodities. Some articles are very expensive. It applies, however, to the average cost of living.

As an offset against their lower prices, incomes are generally lower in the countries where living is cheap.

Why prices are so high in Argen-tina is not entirely clear. For one Continued on Page 4.

Strike is Settled

The strike that was threatened by the railroad employees of the country has been averted, at any event for the time being, by the passage by congress of a law compelling the railways to pay the same wages for an 8-hour day that they have been paying for a 10-hour day, and pro rata for over time. Whether or not the railway employees were entitled to this increase no one knows, because President Wilson made no effort to investigate that phase of the question, and because neither he nor the labor unions would allow Congress time to investigate it. The only evidence on the subject is, therefore, ex parte, the statement of the railway brotherhoods. That the railway men were entitled to a share of the prosperity which this country is enjoying just now as a result of the European war is pretty generally believed, but whether they will receive, under Congress' ill-considered and hastily enacted legislation, their just share, or more or less, no man knows. There is not even the statement of President Wilson on the subject because, instead of devoting himself to that side of the controversy, Mr. Wilson preferred to mislead the public, or to attempt to, and immediately espoused the cause of "the 8-hour day" when the 8-hour day was not

involved at all, and the only question at issue between the railroads and their employees was the amount of compensation which the latter should receive. Some measure of satisfaction is found in the situation because the enactment of the legislation and the prevention of the strike accords with the view which many had all along entertained. It was figured that, in view of the injury which would have resulted to the Democratic party from a general strike, neither Mr. Wilson nor the Democratic majorities in congress would permit such a strike regardless of what steps might be necessary to avert it.

The New York Times, the ablest Democratic paper in New York, is not satisfied with Mr. Wilson's settlement of the railway strike. Under the heading "Where it Leads," the Times says, "In this Republic laws express the people's will, but in the making of this law to increase the pay of one-quarter of the railway employees the people have not had the slightest chance to make known their desire. Their Congress was coerced by the threat of an immeasurable injury to themselves. What Lynch law is to orderly judicial process the method adopted by the brotherhoods, and we have very much regret in saying with too much assistance from the President, is to a constitutional method of law-making. The brotherhoods look on Mr. Wilson as their friend. They may have harmed him vastly more than he has helped them. Such a spirit as has been aroused in this country at this time, in the midst of a Presidential campaign, is not of good political augury for a party in power."

President Wilson has been notified of and has accepted the nomination for another presidential term. In his speech of acceptance, among many other things, Mr. Wilson failed to mention that plank in the platform on which he was elected which declared for a single term for presidents.

HOOSIER BRIEFS.

Shelbyville.—The hero had just discovered the villain and was getting ready to put him out of the film with one mighty blow and with the accompanying appropriate music when the music stopped suddenly. Miss Delsie Farrell, pianist at the Coza theater, had dislocated her jaw as the result of a prodigious yawn.

Gary.—Four Gary boys are in line for appointment as members of the Gary police force. Several homes in the southern part of the city have been broken into and everything turned topsy-turvy. Police knew it to be the work of a boy but it remained for the four boys to run down the culprit, overpower him and march him to a police station.

Greensburg.—To go to bed at night upon a downy couch and to wake up in the dead of the night to feel the jaws of a large trap quickly closing about you was the experience of William Warren of Sandusky the other night.

A bad dream caused him to roll over and his folding bed closed in upon him. As his family were extricating him a mirror tipped over on Warren's head, cutting a deep gash in his scalp.

REUNION HELD

(By United Press.)

Indianapolis, Ind., Sept. 5.—Not as a jubilee over the indictments which they returned but in order to renew the friendships formed during the long time they were held together members of the grand jury which brought indictments against Don Roberts and other Terre Haute election fraud conspirators met at Riverside Park here for their annual reunion.

Frank C. Dailey, former United States district attorney, Milton W. Mangus, assistant district attorney and Charles LeSelle, court bailiff during the grand jury sessions, were the only outside guests at the reunion.

COMBINATION THAT COULDN'T BE BEATEN

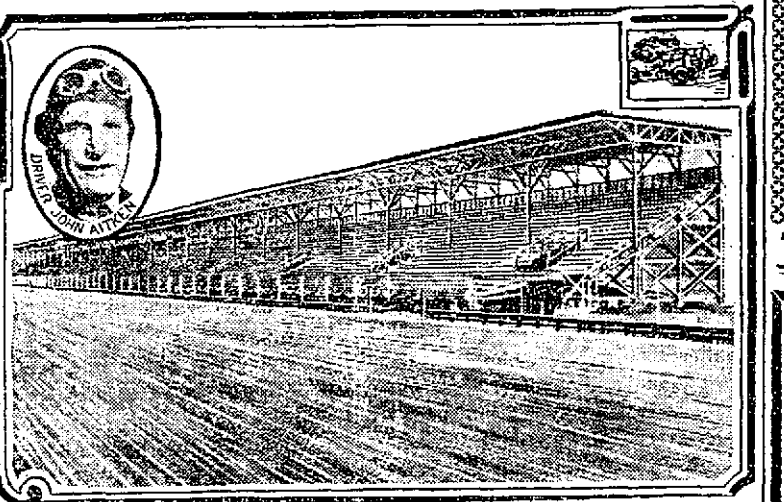

Harrie Jones' First Race This Year and Horse's First Start of his Life is Winner

DIAMOND Q. TAKES 2:25 PACE

Harrie Jones' first race of the season and his horse's first race of his life furnished a combination that couldn't be beaten in the 2:25 paced at the state fair in Indianapolis yesterday. Diamond Q., a four-year-old, was driven the first real race of his young life by the Rushville trainer and showed that he had lots of speed. He drew twelfth position in the first heat, but by a daring drive from the outside of the track, Jones took him across in front of the whole field at the get-away and took the pole before the horses were around the first turn. Jones came in both heats pulled up, in 2:07 1/2 and 2:07 1/2.

The Rushville trainer did not do much good with The Importer in the 2:09 pace, finishing eighth twice and sixth the last heat. Fay Richmond, a gray gelding which was last year in Jones' stable, won the feature race of the day, the 2:03 pace, in sensational style. Fay Richmond was sold to his present owners last fall after Jones won with him at Lexington. He is a colt of New Richmond's, a stallion which was formerly raced by Jones.

VIEW OF CINCINNATI SPEEDWAY AND LABOR DAY RACE WINNER

GOSNELL SEVENTH IN HISTORY TO MARK TWO-MINUTE PACER

(Cleveland Leader, Sept. 3)

Curt Gosnell, veteran trainer and widely known throughout the horse world as one of the most skillful trainers of the twice-arounds, and also during the last two seasons as the man who made Single G. one of the greatest pacers that ever appeared on the Grand Circuit, died yesterday morning at St. Alexis hospital as a result of injuries incurred nine days ago while working the pacing mare, Hazel Armstrong, at North Randall.

Gosnell never recovered consciousness after the accident, which was caused by the mare hitting herself while rounding the turn, catching in her hocks, falling and then crushing and kicking Gosnell in her efforts to extricate herself from the tangle.

Ever since, Gosnell has been in a comatose condition. William Barefoot, of Cambridge City, Ind., owner of Single G., called in specialist after specialist in a vain hope that Gosnell's life could be saved. But all human effort was unavailing and at 10:45 yesterday morning Gosnell quietly and peacefully passed away.

For many years Gosnell trained a large public stable at Cambridge City, and annually had one of the best stables that campaigned down the leading half-mile circuits, but last season moved to Muncie, Ind.

He had not been in the best of health for some years and in 1914 was kept out of the sulky most of the time through sickness and it was currently reported that that illness had been fatal. Curt later laughingly said that he had read in the

paper that he had passed to the great beyond.

Gosnell was the seventh man to mark a pacer in the select two-minute list, turning the trick this season at Kalamazoo, when he stepped Single G. in two minutes flat. Single G. was Gosnell's fastest mount, Willie Benton, 2:05 1/2; Frank Yoakum, 2:05 1/2; Flying Jim, 2:09 1/2, being probably the most famous of the other starts that he handled during his long career with the trotter and pacer.

CLASS 1896

The class of 1896 of the Glenwood high school held their first and only reunion at the home of Mr. and Mrs. Chester Beaver one mile north of Glenwood yesterday. The dinner was furnished by the five members living in the immediate neighborhood. Those present were Mr. and Mrs. Chester Beaver, Fred McCarty and family, Mrs. Charles Brooks and son, Mrs. Eva Jensen and sons of Cincinnati, Mrs. John Culbertson and daughter of Indianapolis and Arie M. Taylor of this city, who was the teacher at the time of the graduation. The only two of the nine graduates not present were Allan Wiles, an attorney of Connersville, and Mrs. G. G. Richardson of Van Buren, Ind.

The day was spent in recalling events of school days.

Mrs. Lizzie Borem of West Ninth street entertained with a dinner Sunday the following guests: Mr. and Mrs. Frank Borem and children, Mr. and Mrs. Ed Borem and children, Mr. and Mrs. Mike McFaridge, Mr. and Mrs. William Larabee and daughter, Mr. and Mrs. Clarence Borem and children, Mr. and Mrs. Bob Borem and baby, Mr. and Mrs. Luther Schuck, Mr. and Mrs. John Borem and Mr. and Mrs. Maurice Borem.

PRICES ARE VERY HIGH DOWN IN BUENOS AIRES

Continued from Page 3.
thing, the country's population is small and it has plenty of money, so that, if the cash were evenly distributed, the per capita wealth would be high. Furthermore, it is not a manufacturing country. It lacks workmen in sufficient numbers, it has little water power and it has almost no fuel. There is considerable prospecting for oil. If it should be found in adequate quantities, it will be a God-send and ought to make millionaires of the discoverers. In the meantime, manufactured articles have to be brought from a long way off, which costs money.

Finally, internal transportation facilities are primitive and shipping plying to foreign ports, is in a few hands.

To a considerable extent, however, it looks as if it is expensive to live in Argentina simply because the people who furnish the necessities of life are able to extort the money.

The average Argentine is not paid for his work in proportion to what he has to pay for his living.

A comparatively small number of men, mostly cattle and wheat kings, make huge sums. There is a fair proportion of rich middlemen. A great deal of the big money, the country produces belongs to foreign investors and goes abroad.

A salaried man is considered in possession of a good round income if he receives \$150 to \$200 monthly. Of course this does not go nearly so far as it would in the United States.

A first class printer or locomotive engineer may make as high as \$175 monthly.

Bricklayers are paid from \$2.50 to \$3.50 daily but do not have work all the time. A carpenter, who also has periods of unemployment, earns from \$1. to \$2.50 daily.

There is a wide variation, according to season, in what an unskilled laborer receives. At times he gets as low as 30 pesos and at others as high as 80 pesos monthly, or, in United States money, from \$13.20 to \$35.20.

On a farm, it is possible to imagine how a man might live on the latter of these two sums, even in Argentina. How he succeeds in doing it in Buenos Aires, and how, in particular, he succeeds in doing it part of the time on \$13.20 per month is a puzzle.

It seems to be the consensus of opinion that he can get enough of a poor quality of food but that his shelter is such as would revolt a self-respecting hog in the United States. He wears whatever clothes he can pick up.

EMBROIDERY ON BLOUSE

The vogue of hand embroidery is a blessing for many reasons in that a very exclusive touch can be given to a garment. After examining the prices charged for embroidered blouses and frocks a woman can appreciate the worth of her own hand-ornamented garments.

At the present time there is a very unusual way of treating the blouse. The right side of closing is scalloped and decorated with tiny sprays. The edge of the collar and cuffs is stamped in like manner. Beneath the stamped portion a piece of colored material, blue or lavender is sewed, sufficient being provided to extend beyond the scalloped edge. The embroidering is done through the two thicknesses of material. In order that the attached piece will be effective the blouse should be white so that the idea will gain beauty by force of contrast.
